EVA-Vet® Digital Sensor

**\$600**

MANUFACTURER'S REBATE

Combined rebate on  
purchasing both Image-Vet 70 ACP  
and EVA-Vet Digital Sensor

\*Additional cost for installation may apply.  
Offer may be discontinued at any time.

## Here's how to take advantage of these savings.

Every qualifying new order of \$1,500 or more of ANTIROBE® (clindamycin hydrochloride), DOXIROBE™ (doxycycline hyclate) Gel, Porphyromonas Denticanis-Gulae-Salivosa Bacterin, or CLAVAMOX® (amoxicillin/clavulanic acid) on one invoice is eligible to receive a coupon redeemable for a manufacturer's rebate. Purchase may be set up directly through AFP Imaging Corporation or an AFP-approved dealer.

- Installation must be performed by an AFP Imaging Corporation approved dealer.
- All questions about Pfizer products should be directed to your Pfizer representative.

Prior to equipment purchase, call 908-230-1955. An experienced Dental Consultant will determine the appropriate training option to fit your needs. We will discuss installation options, computer requirements, and any other questions you have on successfully using dental X-ray equipment and growing your veterinary dental practice.

Call AFP at 1-800-592-6666 ext. 600 to request a brochure or visit their Web site at [www.afpimaging.com](http://www.afpimaging.com).

# Pfizer/AFP Promotions Program Frequently Asked Questions

To qualify, clinics must submit the following to AFP Imaging at 2500 Clearbrook Road, Elmsford, NY 10523:

- A copy of the Pfizer Animal Health invoice within 90 days from the date of shipment.
- A completed AFP Imaging warranty card.

**Q.** Is Pfizer Animal Health in the X-ray business?

**A.** While not in the X-ray business, Pfizer Animal Health believes that prudent use of antibiotics requires the correct diagnostic tools, and dental radiology equipment provides the most accurate diagnosis for dental procedures.

**Q.** I already own an Image-Vet 70 ACP. Can I get another one through this promotional offer?

**A.** Yes, you may purchase another system with each qualifying new order.

**Q.** Am I eligible for rebates on both the Image-Vet 70 ACP and an EVA-Vet Digital Sensor with a single \$1,500 purchase on one invoice of ANTIROBE, DOXIROBE Gel, Porphyromonas Denticanis-Gulae-Salivosa Bacterin, or CLAVAMOX products?

**A.** Yes, you are eligible to receive a rebate for either, or both, systems with each qualifying order of Pfizer Animal Health product(s).

**Q.** Who do I contact to order my Pfizer Animal Health products?

**A.** You may order from your Pfizer Animal Health representative. A purchase of \$1,500 must appear on one invoice and be made within 30 days of buying an AFP Imaging system.

**Q.** Where else is the AFP Imaging program available?

**A.** Qualifying orders of \$1,500 or more can be placed for CLAVAMOX through approved distributors.

**Q.** What is a standard wall-mounted installation?

**A.** Standard wall-mounted installation is on wood studs with 16-inch centers that are part of a load-bearing wall.

**Q.** Is positioning training required?

**A.** If you have not taken dental X-rays in the past, it is recommended. Clinics that invest in proper training have few problems and are much more profitable. Prior to purchase, call 908-230-1955 for training options and costs.

**Q.** Where can I learn more about the AFP Imaging equipment line?

**A.** You may call AFP Imaging at 1-800-592-6666 ext. 600 to request a brochure and to schedule an appointment with an AFP professional representative. You may also visit the AFP Web site, [www.afpimaging.com](http://www.afpimaging.com), to request a free brochure.
